

Joint press release from SMA and SMA Altenso

SMA Altenso with new presence in Australia and South Africa

Niestetal, Germany, 23 October 2025 – SMA Altenso has expanded its presence in the key markets Australia and South Africa, marking a cornerstone in the company's global growth strategy. This step reinforces Altenso's commitment to driving the global energy transition by leveraging its project expertise and SMA's advanced inverter technology in large-scale energy projects worldwide.

With the establishment of Altenso Australia Pty Ltd and Altenso Africa (Pty) Ltd., the international system integrator strengthens its regional activities in two strategically important markets for sustainable energy solutions. Backed by a proven track record of over 1.5 GW of installed battery capacity (BESS=Battery Energy Storage Systems) and more than 1 GW of delivered power technology for hydrogen projects, Altenso is perfectly positioned to support the realization of ambitious clean energy targets.

The Managing Directors at Altenso, Burkhard Söhngen and Dr.-Ing Enrique Garralaga, comment: "Altenso Australia and Altenso Africa mark a key milestone in the Altenso journey, paving the way for further growth in our BESS and hydrogen businesses. We are excited to collaborate with local partners and actively contribute to a sustainable energy future in these regions."

Current projects in Australia and Africa

Altenso recently announced a strategic partnership with the Australian project developer Avenis Energy. Together, the companies will deliver two standalone BESS projects in New South Wales: Moree and Deniliquin BESS, each with a capacity of 120 MW / 480 MWh, are on track to reach ready-to-build status within the coming months.

In Africa, Altenso is focusing on the development and implementation of battery storage projects, system integration and pilot initiatives, targeting enhanced energy reliability in regions with weak grid infrastructure.

Altenso is a subsidiary of SMA Technology AG. The company has over 40 years of inverter technology know-how, its innovative large-scale solutions feature grid-forming technology, inertia, and black-start functionality. In addition, Altenso and its subsidiaries benefit from SMA's strong global network and service capabilities.

About SMA Altenso

SMA Altenso GmbH is a wholly owned subsidiary of SMA Solar Technology AG. The young, diverse and dynamic company aims to drive the energy transition by delivering innovative projects around the world. As an international system integrator based in Germany, Australia, and South Africa, Altenso offers comprehensive solutions designed for the integration of complex energy systems. These include large-scale battery storage systems, hydrogen applications, as well as island and hybrid solutions for both off-grid and grid-connected energy supplies.

About SMA

SMA Solar Technology AG is a leading global specialist in photovoltaic and storage system technology and is driving advances in the field of decentralized and renewable energy supplies. The SMA portfolio comprises efficient solar and battery inverters, intelligent energy management systems, charging solutions for electric vehicles, and power-to-gas solutions. The company's multi-award-winning technology is protected by more than 1,600 patents. SMA Solar Technology AG has been listed on the Prime Standard of the Frankfurt Stock Exchange (S92) since 2008 and is listed on the SDAX index.
